★ **WHAT is Research Data?**

Any information like:

- ① statistics
- ① interviews
- ① simulations
- ① measurements

DATA

**DOCU-
MENTATION**

Why?

Because you & others need
break, become sick, have
deadlines.

Control for rights & licences.

Backup instead
of Data Loss

WS: DATA FROM AN EXCAVATION

To Do: 2 teams from 2 partner institutions collect data. Workshop is about answering questions on the Data Management

- A** 2 Laptops destroyed in Sandstorm. **WHAT TO DO?** 
- B** Different coordinate-systems were used. 

- C** Photos of lower contrast. Team A have t & resolution!

- D** Raw data got lost because a team member left team

- E** A team member used a different software for scripts

- F** ...

Contracts

might **Help** to regulate
responsibility & availability
for/of data.
