

Use cases for institutional change towards responsible research and open science

Webinar 30th Oct. 2019

Helene Brinken

State and University Library Göttingen, Germany

Speakers

Dr. Adrian Solomon
Project Manager
South East European
Research Centre,
Greece

Raquel Almeida
Senior Project Manager
Training & Qualifications
ISQ, Portugal

Mary Jane Monaghan
Research Assistant
University of Liverpool
UK

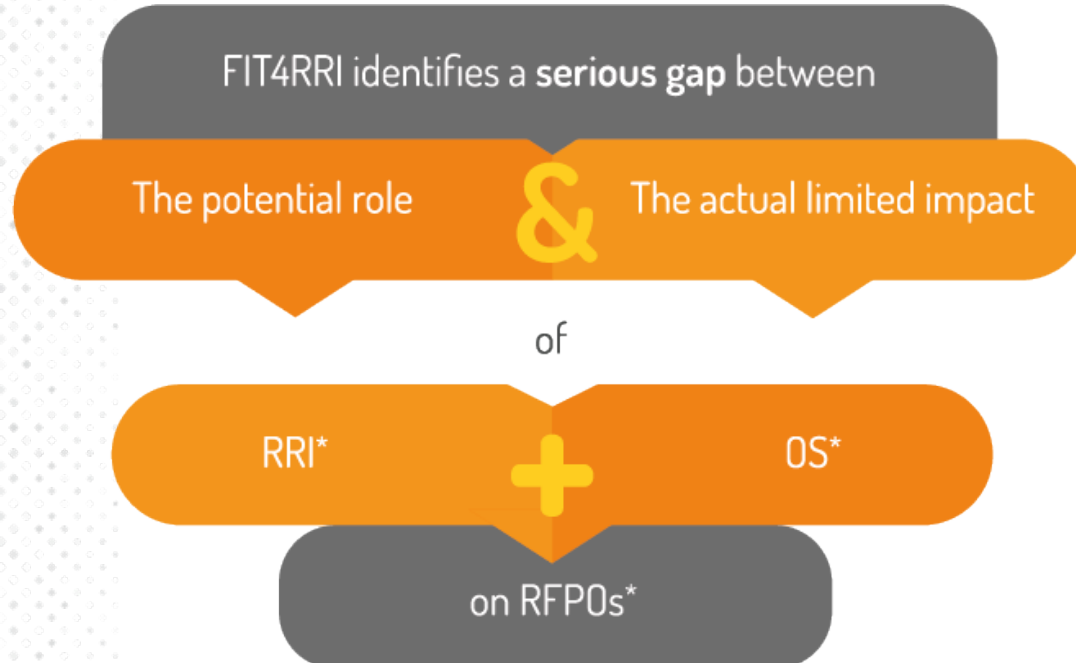

Responsible Research & Innovation

- Science & technology can create risks & ethical dilemmas
- RRI seeks to bring R&I into the open, to anticipate consequences, & to involve society www.rri-tools.eu/about-rri
- Societal actors, (e.g. researchers, citizens, policy makers, business, NGOs), work together during the R&I process to better align processes & outcomes with values, needs & expectations of society. www.fit4rri.eu/project
- Involve all stakeholders at all levels to minimize potential negative impact of R&I.

The Project: Fostering Improved Training Tools for Responsible Research & Innovation

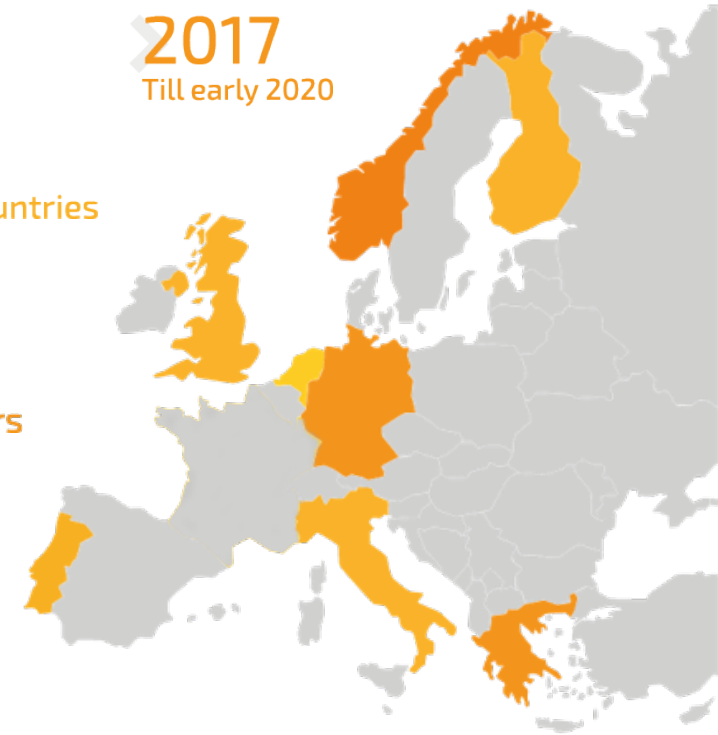

3 Years
project duration

2017
Till early 2020

9
Countries

12
Partners

Objectives

The project acts on **2 key factors** to bridge the gap and activate institutional changes in RFPOs:

1 Training

2 Governance

Context & Approach

1

Understanding

Analysis

Trends, barriers,
drivers, interests
& values

3

Promotion & Sharing

Activity

Training tools &
guidelines for
governance settings

2

Testing

Observation

RRI & OS in action through
co-creation experiments

Mapping & Benchmarking + Sectorial Analysis
