Use cases for institutional change towards responsible research and open science

Webinar 30th Oct. 2019

Helene Brinken
State and University Library Göttingen, Germany
Speakers

Dr. Adrian Solomon
Project Manager
South East European Research Centre, Greece

Raquel Almeida
Senior Project Manager
Training & Qualifications
ISQ, Portugal

Mary Jane Monaghan
Research Assistant
University of Liverpool
UK
Responsible Research & Innovation

- Science & technology can create risks & ethical dilemmas
- RRI seeks to bring R&I into the open, to anticipate consequences, & to involve society
- Societal actors, (e.g. researchers, citizens, policy makers, business, NGOs), work together during the R&I process to better align processes & outcomes with values, needs & expectations of society.
- Involve all stakeholders at all levels to minimize potential negative impact of R&I.

The Project: Fostering Improved Training Tools for Responsible Research & Innovation

FIT4RRI identifies a **serious gap** between

- The potential role
- & The actual limited impact

**RRI** + **OS**

on RFP0s*

3 Years project duration

2017 Till early 2020

9 Countries

12 Partners
Objectives

The project acts on **2 key factors** to bridge the gap and activate institutional changes in RFPOs:

1. Training
2. Governance
Context & Approach

1. Understanding
   Analysis
   Trends, barriers, drivers, interests & values

2. Testing
   Observation
   RRI & OS in action through co-creation experiments

3. Promotion & Sharing
   Activity
   Training tools & guidelines for governance settings
Mapping & Benchmarking + Sectorial Analysis
