- I. Integrating Social Sciences and Humanities (SSH) across Horizon 2020
- II. Horizon 2020 approach for Societal Challenge 6
- III. Societal Challenge 6 Work Programme 2018-2020

Integration of SSH in Horizon 2020

- Supported through the 'Excellent Science' part of H2020 (ERC, Marie Curie and Infrastructures)
- Integrated in Leadership in Enabling and Industrial Technologies (LEIT) where relevant
- Integrated in all Societal Challenges
- SSH play a major role in the Societal Challenge 6: "Europe in a changing world – inclusive, innovative and reflective societies"

The role of SSH in excellent science

- The European Research Council (ERC) is already a major funding source for curiosity driven frontier research. About 17 % of the ERC-budget will be allocated to SSH
- Marie Curie-Sklodowska Actions (MCA) give opportunities for greater mobility and network building. SSH share of 11-12 %
- Several major research infrastructures in the SSH are supported by FP7/H2020 : CESSDA, DARIAH, CLARIN, ESS, SHARE

The role of SSH in industrial leadership

- Strengthening the cultural and social aspects of innovation
- SSH as a source of creativity in development of services and products
- Societal aspects
- Business and management models

The role of SSH in the Societal Challenges

- The Societal Challenges will bring together different technologies, sectors, scientific disciplines, social sciences and humanities, and innovation actors to find new solutions

Examples of SSH-relevant themes in the societal challenges 1-3

- **SC1:** Understanding the determinants of health and optimising the effectiveness of healthcare provisions
- **SC2:** Support to policies empowering rural areas and promoting informed consumer choices
- **SC3:** Robust decision making on energy policy and in ensuring a consumer friendly European electricity grid and a transition to a sustainable energy system

Examples of SSH-relevant themes in the societal challenges 4, 5 and 7

- **SC4:** Supporting evidence based transport policy and foresight, urban mobility
- **SC5:** Support to climate change mitigation and adaptation strategies, resource efficiency initiatives and measures towards a green and sustainable economy
- **SC7:** Cultural and socio-economic aspects of security, risk and management issues (including legal and human rights aspects)

Challenge based approach is reflected in the description of the "Topics" of the Work Programme

- **Specific Challenge:** Sets the context, the problem to be addressed, why intervention is necessary
- **Scope:** delineates the problem, specifies the focus and the boundaries of the potential action BUT without describing specific approaches
- **Expected Impact:** describe the key elements of what is expected to be achieved in relation to the specific challenge

Societal Challenge 6: Inclusive Societies

- Smart, sustainable and inclusive growth
- Building resilient, inclusive, participatory, open and creative societies in Europe
- Europe's role as a global actor
- Sustainable and inclusive environments through innovative spatial and urban planning and design

Societal Challenge 6: Innovative societies

- Strengthening the evidence-base and support for the IU and ERA
- Explore new forms of innovation, with special emphasis on social innovation and creativity

Hints for a **successful** Proposal

Before you start preparing your proposal

- ❖ Read carefully the **Work Programme**, at least the part that interests you the most;
- ❖ Read more than carefully the **Guide for applicants**;
- ❖ Provide the evaluators with evidence for your claims, but **avoid** external resources (links to websites etc.);
- ❖ Graphics and charts can be very helpful, but **don't overdo** it! Make sure they are readable in black & white;
- ❖ Page limit **10 pages** (for IF) and **30 pages** (for ITN and RISE) to be absolutely respected.

- ❖ Take also note of the following...

Hints for a **successful** proposal

- ❖ Proposal should make the evaluators' "life" **easier** (consistent, well-written, "built" around the award criteria);
- ❖ The evaluators may not all be world experts in **exactly** the area of your proposal – avoid using very specific jargon and acronyms!
- ❖ Provide the evaluators with evidence for your claims, but **avoid** external resources (links to websites etc.);
- ❖ Graphics and charts can be very helpful, but **don't overdo** it! Make sure they are readable in black & white.
- ❖ Check the English with a **native speaker** if possible.
- ❖ Take also note of the following...

Hints for a **successful IF Proposal**

- ❖ Explain the contribution that your project is expected to make. Your project should be innovative and original. **It cannot look like a continuation of a PhD.**
- ❖ Demonstrate the expertise of the host institution as well as the expertise of the scientific in charge in the field of research you want to explore. Information must be given **on host's expertise in training experienced researchers** and capacity to provide mentoring/tutoring.
- ❖ Describe how this project will **contribute to your own career.** The potential of the fellow to acquire new competencies should be clearly described.
- ❖ Find a successful proposal (Google also helps – **“Part B”**).
